## PEAT MOSS

### Flower and Vegetable Beds

"Double Key" brand granulated peat moss is used with excellent results in flower beds and vegetable gardens, if worked into the soil in proper proportions. For mulching around perennials, roses, evergreens, shrubs, hedges, etc., it is excellent. When planting young trees and shrubs peat moss manure, which can be easily prepared by anyone, from stable manure and peat moss, should be added to the soil as it assists rooting in an extraordinary manner.
